- Times tables

WHY ARE TIMES TABLES IMPORTANT?

SUPPORT LEARNING

Times tables serve as a building block for higher-level maths concepts.

With a strong understanding of multiplication, children will succeed with topics such as division, fractions, algebraic equations, and more!

STRENGTHEN LIFE SKILLS

Times tables have practical applications in our daily lives.

From calculating prices and discounts while shopping, to managing budgets, multiplication is an essential skill for financial literacy and general problem-solving.

BUILD CONFIDENCE

Children feel more confident in their mathematical abilities when they have a solid grasp of times tables.

They'll be up for tackling more challenging mathematical tasks and increase their success and enjoyment of Maths!

And an amazing
team of helpers

We are a friendly group of super friendly, approachable, fun parent volunteers that give their time to create special memories for our children and raise much needed funds to enhance learning.

By having children at our school means you are automatically part of the PTA and we would love you to join us and be involved. It's a great way to get to know the school and feel part of the Warberry community.

We'd love new parents
to join us whether at
meetings to plan events
or at actual events.

You don't have to
commit to every event we do!

Please join our Facebook page to keep up
to date with our events

Together
we make a

Thank you!
